GETTING VAXXED IS GOING VIRAL

**Share your vaccination story
to encourage others to get their
COVID-19 vaccine.**

You're protecting yourself and your campus community by getting vaccinated against COVID-19.

But vaccines work best when as many people as possible get vaccinated, not just you.

Do even more to protect yourself and your community. Help people overcome their fears and skepticism about the COVID-19 vaccines by sharing your vaccination story on social media.

And don't forget to include the hashtag #WeCanDoThis!

**For more information, go to
