

Let's Do Our Part

When more American Indian and Alaska
Native people living on tribal lands and living
in urban areas wear masks and practice physical
distancing, we help reduce the chance of being
exposed to the virus that causes COVID-19 and
spreading it to others. More can be done to
protect ourselves by getting vaccinated.

All COVID-19 vaccines currently available in the United States have been shown to be highly effective at preventing severe illness, hospitalization, and death due to COVID-19, including from the Delta variant.

COVID-19 vaccines are carefully evaluated in medical studies involving thousands of participants. They are authorized or approved only if they are proven to be safe and decrease the chance that you will get COVID-19.

Getting vaccinated yourself may also protect people around you, particularly people at increased risk for severe illness from COVID-19.

Get vaccinated as soon as you can. You have three ways to find vaccines near you:

- Go to vaccines.gov
- Text your ZIP code to 438829
- Call 1-800-232-0233
