Get Your COVID-19 Vaccine Booster Shot Here

Keep up your protection against COVID-19

COVID-19 vaccines continue to work very well at preventing severe illness, including from the Delta variant. A booster shot is an extra dose that helps keep up your protection.

When to get your booster

Everyone age 16 and older can get a free booster.

- **Pfizer-BioNTech or Moderna**
  (6 months after your 2nd dose)

- **Johnson & Johnson's Janssen**
  (2 months after your single dose)

Choose any COVID-19 vaccine as your booster

Your booster doesn't have to be the same vaccine you got before. Pfizer-BioNTech's COVID-19 vaccine is the only one authorized for people ages 16–17.
