Vaccination Is Your Best Protection From COVID

Get your COVID vaccine as soon as you can. You have three ways to find vaccines near you:

- Go to [vaccines.gov](https://www.vaccines.gov)
- Text your ZIP code to 438829
- Call 1-800-232-0233

To maximize protection from highly contagious variants and prevent possibly spreading COVID to others, both vaccinated and unvaccinated people should wear a well-fitting mask inside public places [when the COVID risk to your community is high](#).

If you're at higher risk of getting very sick from COVID, you can also protect yourself by:

- Staying at least 6 feet away from people who don't live with you.
- Avoiding crowds and poorly ventilated indoor spaces.
- Washing your hands often with soap and water. Use hand sanitizer when soap and water aren't available.
